

SPRING IN SPAIN

High on a hillside overlooking the Spanish village of Bedar, sits the lovely villa, Casa Fuentecica. In walking distance, the charming village contains picturesque local bars and restaurants, a small shopping area and a bakery and pharmacy. A 20-minute drive away is the popular resort of Mojacar with a long sandy beach and vast array of restaurants, beach bars and shops. Nearby is the fishing port of Garrucha. A tour guide and cook are available at extra expense.

The villa's rooms are spacious and furnished comfortably. Doors lead from the mezzanine lounge onto the terrace which provides an inviting setting for dining and an opportunity to enjoy the beautiful mountain and sea views. There are three bedrooms that sleep six. The villa is air-conditioned. And to top it all off, there's a beautiful swimming pool.

Enjoy a **one week stay during Spring, 2020**, with the date depending upon availability. Go to <https://casafuentecica.yolasite.com> for more information.

Compliments of Gerry Allen
